

BERANA LMS

Institution Master Data Collection Guide

Development Team Reference Document

Purpose

Define the minimum institution-level information Berana LMS should collect during institutional onboarding, with pr

Prepared for the Cyber-Zeb Consulting Software Development Team
September 2026

1. Purpose

This document defines the Institution Master Data that should be collected when a university, college, TVET institution, training center, government academy, corporate academy, or similar organization is onboarded to Berana LMS. The examples are illustrative test data and are not intended to represent a real institution.

2. Institution Master Data Fields

#	Data Group	Fields to Collect	Sample Example
1	Institution Identity	Institution ID; institution code; legal name; short name/acronym; institution type; ownership type; registration/license number; year established	INST-0001; DTI; Demo Technology Institute; DTI; University; Private; EDU-2026-001; 2015
2	Contact Information	Main phone; secondary phone; official email; website; general inquiry email; admissions email; registrar email	+1 703-555-0100; +1 703-555-0101; info@demo.edu; www.demo.edu; inquiry@demo.edu; admissions@demo.edu; registrar@demo.edu
3	Physical Address	Country; state/region; city; sub-city/district; street/address; postal/ZIP code	United States; Virginia; Arlington; Arlington County; 1000 Example Avenue; 22201
4	Primary Contact Person	Full name; job title; department/office; official email; mobile/telephone	Dr. Sara Example; Director of Academic Services; Academic Affairs; sara.example@demo.edu; +1 703-555-0120
5	Institution Leadership	President/CEO/Director; vice president/deputy director; academic head; registrar; HR contact; finance contact	Dr. Michael Example; A. Johnson; Dr. Hana Example; M. Lee; R. Smith; J. Brown
6	Academic Structure	Number/list of campuses; colleges/schools; faculties; departments; academic units	2 campuses; School of Computing; School of Business; 8 departments
7	Academic Calendar	Current academic year; start/end dates; semester/term structure; number of terms; registration dates; class dates; examination period	2026/27; Sep 1, 2026-May 28, 2027; Semester; 2; Aug 10-28; Sep 1-Dec 18; Dec 7-18
8	Certification Information	Certificate types; authorized signatory name/title; certificate numbering format; institutional seal/stamp availability	Completion Certificate; President/Registrar; DTI-CERT-YYYY-#####; Yes
9	Berana LMS Administrator	Administrator full name; job title; department; official email; phone; administrator role	Daniel Example; LMS Administrator; IT Services; lmsadmin@demo.edu; +1 703-555-0140; Institution Admin
10	Subscription & Licensing	Berana package; license type; contracted users; activation date; renewal date; expiration date; billing cycle	Berana Professional; SaaS Annual; 5,000 users; Sep 1, 2026; Sep 1, 2027; Aug 31, 2027; Annual

3. Sample Institution Master Record

The following example shows how one completed institution record could appear in Berana LMS.

Field	Sample Value
Institution ID	INST-0001
Institution Code	DTI
Legal Institution Name	Demo Technology Institute
Short Name / Acronym	DTI
Institution Type	University
Ownership Type	Private
Registration / License Number	EDU-2026-001
Year Established	2015
Country	United States
State / Region	Virginia
City	Arlington
Physical Address	1000 Example Avenue, Arlington, VA 22201
Official Email	info@demo.edu
Main Telephone	+1 703-555-0100
Website	www.demo.edu
Primary Contact	Dr. Sara Example - Director of Academic Services
President / CEO / Director	Dr. Michael Example
Registrar	M. Lee
Number of Campuses	2
Current Academic Year	2026/27
Berana LMS Administrator	Daniel Example - LMS Administrator
Subscription / License	Berana Professional - Annual SaaS - 5,000 users

4. Development Notes

System-generated fields: Institution ID should be generated automatically and remain unique. **Required fields:** At minimum, require legal institution name, institution type, country, official email, primary contact, and LMS administrator. **Validation:** Validate email formats, telephone formats where practical, dates, and duplicate institution records. **Data separation:** Each onboarded institution should have a unique institution/tenant identifier so institution-level records can be associated correctly throughout Berana LMS.

Note: Branding, programs, courses, student configuration, instructor configuration, delivery model, grading configuration, technology, compliance, and system-status fields are intentionally excluded from this Institution Master Data scope.
